

F9-111 Flat Nosing

F9-111 Step Nosing

The F9-111 is designed to create a highly visible step edge to reduce slips and falls and enhance speed in all situations whether light, dark or dimly lit.

The right-angled aluminium step nosing is fitted onto the edge of the step to create an aesthetically pleasing edge.

The 37.3mm photoluminescent insert of hard wearing slip resistant silicon carbide is visible for many hours after the lights go out, having been charged from sunlight or artificial light.

The F9-111 can be used on a range of substrates such as concrete, timber, tiles, vinyl, steel and checker plate. Installation is a simple process using fixers (supplied) and glue.

It can also be fitted over steps with an industrial or commercial type carpet (with no underlay) and up to 6mm thick.
