

# T3-171 Threshold Strip

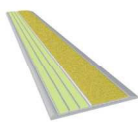

## T3-171 Threshold Strip

The T3171 is designed to create a highly visible step edge to reduce falls and enhance speed in all situations whether light, dark or dimly lit.

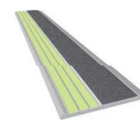

The T3-171 can be easily glued into place. It can also be mechanically fixed by drilling through the non-slip area as suited to the location

The 16mm photoluminescent strip is visible for many hours after the lights go out, having been charged from sunlight or artificial light.

The T3-171 also as a 21.3mm hard wearing slip resistant silicon carbide strip.

T3-151  
Yellow Slip Resistant silicon carbide  
+ Photoluminscent Strip

T3-161  
Grey Slip Resistant silicon carbide  
+ Photoluminscent Strip
